

# Abdulazeez Ibrahim Sani

**Nationality:** Nigerian

**Phone:** +234 704 076 8898

**Email:** abdulazeezibrahim202@gmail.com

---

## Professional Summary

Results-driven **Software Developer, Data & Systems Analyst, and Educator** with **8+ years of hands-on experience** designing, building, and maintaining scalable digital systems. Strong background in **full-stack development, data analysis, information systems, and education-focused technology solutions**. Proven ability to lead teams, train learners, and translate complex problems into practical, data-driven solutions. Experienced in working with remote teams and multidisciplinary stakeholders.

---

## Core Competencies

- Full-Stack Web Development (MERN, Django, REST APIs)
  - Data Analysis & Information Systems
  - Monitoring, Reporting & System Evaluation
  - Database Design & Optimization (MySQL, SQL)
  - Education Technology & Training
  - Systems Thinking & Problem Solving
  - Leadership, Mentorship & Team Coordination
  - UI/UX Implementation & Responsive Design
- 

## Technical Skills

**Languages:** JavaScript, Python, PHP, C++, SQL

**Frameworks & Libraries:** React.js, Node.js, Express.js, Vue.js, React Native, Redux, Redux-Saga

**Frontend:** HTML, CSS, Tailwind CSS, Bootstrap, MUI

**Data & Tools:** Pandas, NumPy, Git, GitLab CI, Jira

**Other:** IoT, Embedded Systems, ROS (basic), ML fundamentals, API Integration, Linux Servers

---

## Professional Experience

### Full Stack Developer

#### **MastermindTech - Nigeria**

*May 2018 – Present* - Designed, developed, and maintained scalable web applications for clients and internal products. - Built RESTful APIs and integrated databases to support data-driven features and reporting. - Collaborated with cross-functional teams to deliver reliable, user-centered solutions. - Mentored students and junior developers in web development, databases, and system design. - Applied analytical thinking to troubleshoot complex system and performance issues.

---

### Chief Operations Officer (COO)

#### **Afro Tech - Khartoum, Sudan**

*February 2022 – 2023* - Provided strategic and operational leadership for a technology training center. - Supported curriculum planning and technical capacity-building for computer students. - Coordinated instructors and programs to improve learning outcomes and operational efficiency. - Contributed to organizational growth through planning, process improvement, and oversight.

---

### Technical Support & Systems Technician

#### **Hamura Communication Center - Nigeria**

*March 2012 – July 2017* - Diagnosed and repaired mobile devices and computer hardware. - Installed operating systems and resolved software-related issues. - Provided customer-facing technical support and managed device sales. - Built a strong foundation in practical IT troubleshooting and system maintenance.

---

## Education

### Bachelor of Computer Information Systems

#### **Canadian Sudanese College - Khartoum**

*September 2017 – September 2021* - **Major:** Programming | **Minor:** Business -

Graduated on the **Dean's List** for academic excellence. - Led the **Computer Club**, organizing tutorials and peer-learning sessions.

---

## Leadership & Achievements

- Dean's List Graduate
  - Computer Club Coordinator – promoted technical knowledge sharing and mentorship
  - Led development teams and education-focused projects combining technology and planning
- 

## Professional Development

- Continuous self-directed learning in **Machine Learning, AI, Data Science, and Systems Design**
  - Completed multiple hands-on projects integrating databases, analytics, and automation
- 

## Additional Experience & Familiarity

- 5+ years of commercial experience building scalable MERN-stack applications
  - Strong experience developing Node.js APIs with Express.js
  - Proficient in writing optimized and performant database queries
  - Solid understanding of modern React ecosystem and state management
  - Familiar with test-driven development (Jest, Mocha)
  - Experience with GitLab, Jira, and CI pipelines
  - API integrations with social platforms (Facebook, Twitter)
  - Experience deploying and managing personal web servers
- 

**Availability:** Open to remote and international opportunities, including internships and research-driven roles
